Clinical Terms Version 3 (The Read Codes) Technical Update – April 2018 Release

Changes for the April 2018 Release

The clinical V2inV3 content and associated documentation was discontinued after the October 2013 release and is no longer included in the release process or available on request through the Information Standards Helpdesk.

For the April 2017 release, existing procedure concepts in CTV3 were cross-mapped to the updated OPCS-4.8 which is mandated for use on 1 April 2017 and until further notice. No further updates have been made for the April 2018 release. This is in line with the Information Standards Notice (ISN) Ref: SCCI 0084 Amd 105/2015.
